## about me

Working in a variety of projects as back-end and front-end developer, with strong analytical skills and a broad range of computer expertise give me a good understanding and knowledge of analysis and design, coding, testing and deployment and also made me a strong problem-solver, who can quickly grasp complex systems and identify opportunities for improvements and resolution of critical issues and also taught me how to be a team member, skilled in enlisting the support of all team members in aligning with the project and organizational goals. You can see my skills on my LinkedIn page.
